Provider Assignment: Assistance Not Requested, Assignment Status Values

This document details the meaning of each Assignment Status value for the *Assistance Not Requested* sub-tab. The Assignment Status for a mandate in Provider Assignment (PA) will vary depending on the progress of the mandate through the provider assignment process. Mandates for students processed by the Committees on Special Education (CSE) first appear in PA on the *Assistance Not Requested* sub-tab, unless the parent request has been recorded in SESIS prior to the start of the school year. In this case, the mandates will first appear on the *Awaiting Contract Agency* sub-tab (or *Awaiting Independent SETSS Teacher* sub-tab if the mandate is for SETSS).
